HVACR Nigeria

CO-LOCATED WITH:

WEST AFRICA WAREHOUSING & LOGISTICS EXPO

6 - 8 April 2027 | Landmark Centre, Lagos

Unlock business opportunities in Nigeria's growing HVACR market

Connect with buyers across construction, commercial and industrial sectors

Organized by: dmg events

www.hvacrnigeria.com

Meeting demand across Nigeria's industries

Nigeria's demand for HVACR solutions continues to grow across commercial, industrial and infrastructure sectors, driven by urban development, industrial expansion and increasing demand for energy-efficient cooling and climate control systems.

As businesses invest in manufacturing, healthcare, logistics, cold chain and commercial facilities, the need for reliable HVACR systems, refrigeration technologies and smart building solutions continues to increase.

Co-located with West Africa Warehousing & Logistics Expo, HVACR Nigeria creates a broader environment connecting professionals involved in project delivery, industrial operations and supply chain infrastructure.

HVACR Nigeria is designed to support this market, bringing together suppliers, engineers, contractors, consultants and decision-makers aligned with real project requirements across Nigeria.

Nigeria: A growing market for HVACR solutions

Nigeria's HVACR market continues to expand as demand rises across commercial buildings, industrial facilities, healthcare infrastructure and temperature-controlled environments.

Increasing urbanization, infrastructure development and industrial growth are creating sustained demand for cooling, ventilation, refrigeration and energy-efficient building systems.

The market is also being shaped by:

- Expansion in cold chain and logistics infrastructure
- Rising demand for data centres and industrial cooling
- Increased focus on indoor air quality and energy performance
- Growing investment in healthcare and pharmaceutical facilities

Market insights

Nigeria air conditioners market projected to reach approximately **USD 611 million by 2032**, growing at a **7.02% CAGR (2026–2032)**

Broader Nigeria HVAC market projected to grow at up to **10.2% CAGR (2025–2031)**, driven by infrastructure, commercial and industrial demand

Nigeria construction market valued at approximately **USD 35 billion in 2025**, with projections exceeding **USD 50 billion by 2034**, supported by infrastructure, housing and industrial development

Nigeria cold chain solutions market estimated at approximately **USD 1.2 billion**, supporting FMCG, food distribution and pharmaceutical sectors

Nigeria pharmaceutical cold chain logistics market estimated at approximately **USD 400 million**

Nigeria data centre cooling market projected to grow at **24.38% CAGR (2026–2031)**, reaching approximately **USD 148 million by 2031**

Nigeria's growing population and accelerating urbanization continue to increase demand for cooling and climate-control systems across residential, commercial and industrial environments

More than 500,000 air conditioning units are estimated to be purchased annually in Nigeria, with unit sales continuing to grow as cooling demand increases

Why exhibit at HVACR Nigeria?

Connect with active buyers

Meet engineers, contractors, consultants, procurement professionals and facility stakeholders involved in active projects and operational upgrades.

Generate qualified business opportunities

Engage directly with professionals sourcing HVACR systems, refrigeration technologies and building solutions.

Position your brand in a growing market

Strengthen your presence within Nigeria's evolving HVACR and industrial sectors.

Showcase solutions in a focused environment

Demonstrate your products to a targeted, technically engaged audience.

Engage across multiple touchpoints

Participate through the exhibition, HVACR Talks sessions and networking opportunities.

Position your brand among leading HVACR solution providers

Join a focused group of HVACR manufacturers, distributors and solution providers and position your brand in front of decision-makers actively sourcing systems and technologies across Nigeria.

2026 exhibitors included:

Carrier | TOSHIBA

DAITECH | DAIKIN

ARTECH2000 | YORK

BAPI Sensors for HVAC/R

air master advance Packaging & Adhesives LLC

JMG | TRANE

GREE

GULF O FLEX | RUBBER WORLD INDUSTRY

THERMAX

DRI™ Innovative Air Solutions

"Participating in HVACR Nigeria has been a valuable experience, providing a strong platform to connect with key industry stakeholders.

The event attracted a quality mix of end users, consultants, contractors and engineers, delivering meaningful engagement and strong return on investment for our business.

We look forward to participating in future editions as the event continues to grow."

Hussam Aziz
Sales Manager, JMG Limited
Exhibitor

Exhibiting countries:

- Austria
- China
- Egypt
- Ghana
- India
- Nigeria
- United Arab Emirates
- United States of America

Showcase your in-demand products and services

Air Conditioning and Cooling

- Cooling Systems
- Central Plant Cooling
- Cooling Components

Heating and Thermal Technologies

- Heating Systems
- Heat Pump Technologies
- Heat Transfer Equipment

Ventilation and Air Distribution

- Air Distribution
- Ventilation Equipment
- Air Movement

Controls and Monitoring

- HVAC Control Systems
- Sensors and Monitoring Devices
- Testing and Measurement Equipment
- Commissioning and System Verification
- HVAC Automation and Software
- Control Components
- HVAC Control systems

Indoor Air Quality and Environmental Control

- Air Filtration and Purification
- Humidity and Moisture Control
- Air Quality and Environmental Monitoring
- Emissions and Air Treatment

Components

- Fluid Control Components
- Pipes, Tubing and Connections
- Pumps and Circulation
- Insulation and Sealing
- Vibration and Noise Control
- Installation and Service Equipment

Refrigeration Technologies

- Refrigeration Equipment
- Commercial Refrigeration
- Industrial Refrigeration
- Refrigerants and Environmental Management
- Cold Chain and Temperature-Controlled Environments

BOOK YOUR SPACE AT HVACR NIGERIA

Meet HVACR decision-makers

HVACR Nigeria brings together professionals involved in the design, delivery and operation of HVACR systems across Nigeria.

Visitor profiles:

Job titles:

- HVAC Engineers
- Mechanical Engineers
- Energy Engineers
- Energy Consultants
- Building Services Engineers
- Facilities Managers / Consultants
- Project Managers / Development Managers
- Contractors
- Distributors / Suppliers / Retailers
- Design Consultants
- Environmental Engineers
- Civil Engineers
- Maintenance Managers
- Health and Safety Managers
- Real Estate Developers
- Property Managers
- Asset Managers
- Government Officials
- Urban Planners
- Construction Managers
- Structural Engineers
- Interior Designers
- Energy Auditors
- Importers / Exporters
- Government Regulators / Standards Authorities
- Renewable Energy Experts

2026 visiting companies included:

+ more

Industry-led technical discussions and insights

HVACR Talks brings together engineers, consultants and technical specialists to address practical HVACR challenges, performance optimization and evolving industry requirements.

8
technical sessions

15+
speakers

150+
industry professionals in the room

2026 programme highlights:

- HVAC system design and load calculations
- Energy efficiency and refrigerants
- Indoor environmental quality
- Cooling for industrial and data centre applications
- Technical leadership and workforce development

"HVACR Nigeria provides an important platform to highlight the industry's role in energy efficiency, infrastructure development and food security.

By bringing together professionals, students and emerging talent, the event creates valuable opportunities for knowledge sharing, education and industry collaboration.

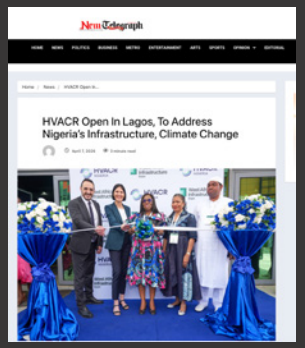
We are pleased to support this initiative and contribute to the growth of the sector."

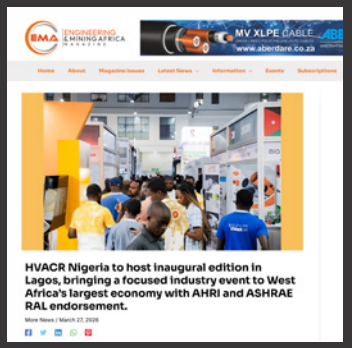
Patrick Carter,
Representative, ASHRAE Region-at-Large
Speaker

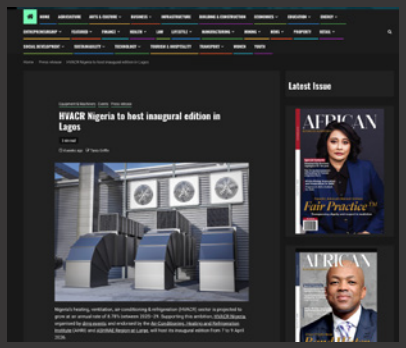
POSITION YOUR BRAND ALONGSIDE TECHNICAL DISCUSSIONS DRIVING NIGERIA'S HVACR INDUSTRY

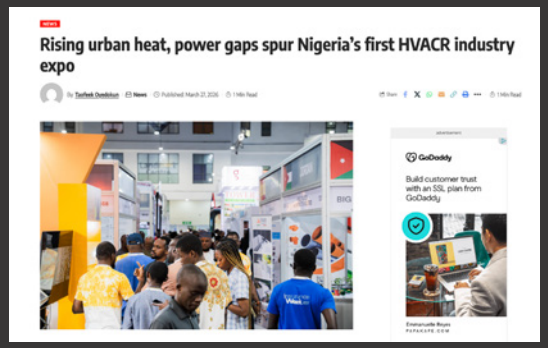
Strengthen your market presence
before, during and after the event

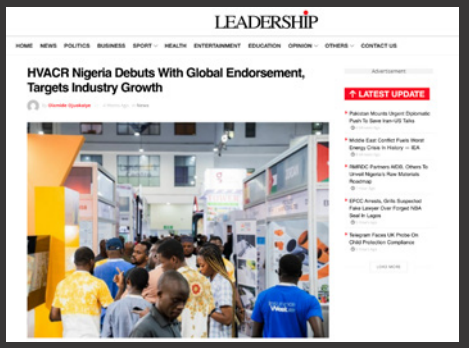
The event received coverage across industry publications and media platforms, reinforcing its role as a key meeting point for Nigeria's HVACR industry.











Media coverage from 2026 included:

africa.com · AFRICAN BUSINESS · ARISE NEWS · BUSINESS DAY · Construction World · Daily Insight

EKO 89.7FM · EMA Engineering & Mining Africa Magazine · gatekeeper.ng · LEADERSHIP · INDEPENDENT

Nigeria Construction News · PUNCH · South Africa Today · The Sun · Town Crier Breaking News · Vanguard

Co-located events
expanding industry connections

HVACR Nigeria is co-located with the newly launched West Africa Warehousing & Logistics Expo, creating a connected environment that brings together professionals across the built environment, HVACR, industrial operations and supply chain sectors.

This co-location strengthens crossover engagement between industries that are closely linked through project delivery and operational performance, from commercial developments to cold chain, warehousing and industrial facilities.

For exhibitors, this creates access to a broader pool of relevant professionals, increasing opportunities for technical discussions, business development and cross-sector partnerships.

HVACR Nigeria

Dedicated to heating, ventilation, air conditioning and refrigeration systems, supporting cooling, energy efficiency and climate-control requirements across commercial, industrial and temperature-controlled environments.

Connect with professionals sourcing HVACR and climate-control solutions

Launch Edition

WEST AFRICA WAREHOUSING & LOGISTICS EXPO

Focused on logistics, warehousing and supply chain solutions, supporting storage, distribution, cold chain and operational efficiency across industrial and commercial sectors.

Engage with logistics and supply chain professionals across West Africa

Together, these co-located events create a more connected business environment aligned with real project ecosystems, enabling collaboration across construction, HVACR, logistics and industrial operations.

HVACR Nigeria
